### SBI Card (BUY)

## INDIA

## Credit cards

### Steady recovery in credit card spends is heartening

Credit card (CC) spends have continued to improve gradually over the months of Jun-Jul-Aug'21. Based on the trend witnessed in Aug'21-TD and factoring-in a 2% MoM growth for Sep'21E (similar to Sep'20 over Aug'20), Q2FY22E CC spends could be 35% higher than in Q1FY22 and 59% higher than Q2FY21. Assuming market share of 19%, SBI Cards (SBIC) spends in Q2FY22 could be 53% / 36% higher on YoY / QoQ basis.

- **CC spends witness sequential improvement.** Total CC spends rose 20% MoM in Jun'21 after declining 18%/12% MoM in Apr'21/May'21. The improvement in spends can be attributed to lower lockdown restrictions owing to falling covid cases. Jun'21 CC spends came in at Rs627bn, largely in line with average spend of ~Rs650bn seen during H2FY21. Ratio of CC spends to debit card spends improved further to 1.23x in Jun'21 vs 1.1x / 1.2x in Apr'21 / May'21, and <1x in Apr-Dec'20. Average CC spend per day (off-us transactions) is seeing continued improvement in Aug'21-TD. CC spend per day has improved from Rs13.8bn/12.7bn/15.9bn/18.1bn Apr'21-Jul'21 to Rs19.2bn in Aug'21-TD.
- **Spends market share – Indian banks lead:** In terms of CC spend market share, Citibank, American Express and HSBC witnessed sequential dip while SBIC saw 30bps increase to 19.5% in Jun'21. Among other Indian banks, HDFC Bank and RBL Bank CC spends market share stood at 27.9% and 4.8%, down ~43bps and 36bps MoM, respectively, while that of Axis Bank remained stable at 8.3%.
- **Total Credit Cards in Force (CIF) increased by 0.4mn in Jun'21:** While overall CIF improved sequentially, key CC players saw either a dip or stable market share in Jun'21. SBIC market share remained steady sequentially at 19.2% in Jun'21. Q1FY22 market share improved to 19.2% compared to 18.4% in Q1FY21.
- **CC spend per transaction rose 5% MoM in Jun'21 for industry vs 3% for SBIC.**
- **Overall CC outstanding at Rs1.03trn in Jun'21, down 1.6% MoM:** Q1FY22 average receivable per CIF for industry and SBIC declined 3% and 8% YoY respectively. On QoQ basis, industry receivable per card increased 7% while SBIC registered a decline of 4.7%. This could be because cautious stance to maintain credit cost by SBIC. Industry and SBIC receivables per card stood at Rs17,355 and Rs20,405 respectively in Q1FY22.
- **Restrictions on new credit card issuances by HDFC Bank lifted.** HDFC Bank has informed stock exchanges that the RBI, vide its letter dated 17<sup>th</sup> Aug'21, has lifted the restriction placed on sourcing of new credit cards. However, ban on Mastercard and Diners platforms will limit new cards to be based only on Visa/RuPay.
- **UPI continues to outperform.** UPI market share in terms of digital payments (which includes NEFT, IMPS, UPI, credit cards and debit cards) has increased from 8.1% in Jan'20 to 11.7% in Mar'21 and 18% in Jun'21. The ratio of UPI spends to CC spends has continued to gradually increase from 3.24x in Jan'20 to 6.97x in Mar'21, and 8.7% in Jun'21. In volume terms, UPI transactions grew 110% in Jun'21 and 117% in Jul'21. Ticket size of payments to merchants grew 13% YoY to Rs768 while overall ticket size declined 4% YoY to Rs1867. Within UPI, the value market shares of Google Pay and PhonePe remain at 34% and 45% respectively as at Jul'21.
